

EXPERIENCE

accelerates success

At Bora Biologics, we transform innovative ideas into market-ready biopharmaceuticals. Our end-to-end services guide you seamlessly from early-stage development to late-stage partnerships, ensuring your success at every step.

What Sets Us Apart

+ State-of-the-Art Facilities

Our FDA-registered facility in San Diego and TFDA-registered facility in Zhubei City are equipped with advanced technology for production ranging from clinical to commercial scale, ensuring global compliance. Approved expansions in San Diego will introduce four 2000L single-use bioreactors (online Q1 2026), significantly enhancing our capacity to meet the increasing demands of U.S. biologics manufacturing.

+ Experienced Team in Commercialization

We have a commercially approved biosimilar available in both the U.S. and Canada. Our extensive experience in developing and transitioning multiple biologics from IND to BLA enables us to facilitate a more streamlined journey to market.

+ Collaborative Approach

We work closely with you, offering expert guidance to navigate the complexities of biopharmaceutical development.

+ Integrated Analytical Development

Our tailored analytical solutions ensure the quality and safety of your biologics, leveraging advanced methodologies for precise results.

+ Quality Control and Assurance

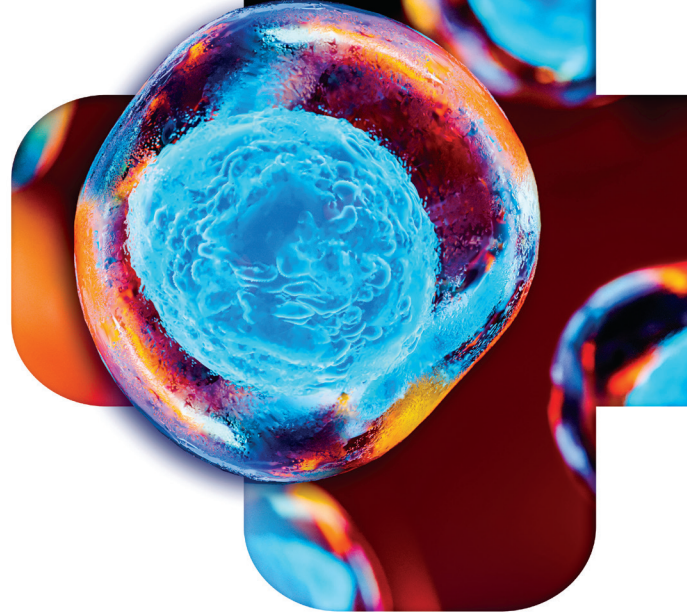

With a proven track record of over 100 successful cGMP batches, we uphold the highest standards of safety and efficacy for every product.

+ Mammalian & Microbial Process Development

We design, optimize, and scale biopharmaceutical production processes to enhance efficiency and accelerate your time-to-market.

+ End-to-End CDMO Services

Together with Bora Pharmaceuticals in Baltimore, we offer an in-house end-to-end service from Cell Line Development to Drug Product.

Our Services

A distinctive partner in biopharmaceutical excellence, Bora Biologics provides a comprehensive suite of services tailored to support your journey. From early-stage development to commercialization, our expert team ensures quality, efficiency, and regulatory compliance at every turn.

+ Early-Stage Development

Formulation development, process optimization, and preclinical testing in Zhubei, Taiwan.

+ Late-Stage Development

Refining formulations and optimizing processes for market readiness in San Diego, CA.

+ Tech Transfer Expertise

Seamless transfer of processes for efficient production through our global MSAT team.

+ GMP Manufacturing

Flexible mammalian and microbial production capabilities.

+ Regulatory Support

Navigating regulatory requirements to ensure compliance and accelerate approvals.

+ ICH-Compliant Stability Studies

Comprehensive stability testing to meet regulatory standards.

Connect with Us

Join the ranks of successful biopharmaceutical companies that have partnered with Bora Biologics.
Together, we can accelerate your path to market.
